# Preface

This book is being published in recognition of all the alumni from Tippecanoe Valley High School and the schools that once existed and were consolidated into a new corporation. The former schools we are recognizing are: Akron, Beaver Dam, Burket, Mentone and Talma.

This book is something like the usual high school annual although it covers more years and attempts to recover for posterity the story of the early years of the school, many of whose students and teachers have long since passed. The wonder is that so much information has been found since more than a century has passed since the beginning of Franklin Township.

Various committees of alumni members have labored long and diligently to secure the pictures and facts herein recorded. It is hoped the book will be kindly accepted by the alumni and others interested in the educational history of this region. Special thanks go to Kay Kindig, a TVHS secretary and employee for 31 years, for her coordination efforts to make this book possible.

Of necessity the book is imperfect, but all identified with it have made every effort to make the record as complete and authentic as possible. We thank everyone for their assistance.

Signed:
The Committee

Robert L. Hoffman
Jerry C. Hudson

Mabel F. Adams

# History of the Tippecanoe Valley School Corporation

Tippecanoe Valley School Corporation was established July 1, 1962, under the Reorganization Act of 1959, Chapter 202. This reorganized school corporation consisted of Henry Township in Fulton County and Seward, Franklin and Harrison Townships in Kosciusko County. At the time, the schools that were established were grades K through 6 and 9 through 12 at Akron and Mentone, grades 7 and 8 at Beaver Dam and K through 8 at Burket. Discussion also began at this time concerning a new centralized high school.

New Castle Township was annexed and merged into the Tippecanoe Valley School Corporation on August 26, 1962. This annexation included the school at Talma.

The old Burket school building was dismantled and sold in 1964 and extensive repair was done on the Akron, Beaver Dam and Talma buildings. Grade levels were set at K through 5 and 9 through 12 at Akron and Mentone, K through 5 at Burket and 6 through 8 at Beaver Dam and Talma.

On January 23, 1968, the Beaver Dam Junior High School building was extensively damage by fire and was subsequently demolished. Students were again redistributed. The Beaver Dam 6th graders moved to Akron Elementary, 7th graders moved to Talma and the 8th graders moved to Akron High School.

After many years of discussion concerning a centralized high school versus two high schools, a decision was made to build a centralized high school on May 8, 1972.

On April 23, 1974 the Talma Junior High School was destroyed by a tornado. The children were redistributed to churches and community buildings throughout the corporation.

In January of 1975, the students moved into the new Tippecanoe Valley High School. Formal dedication took place on November 16, 1975.

On August 25, 1987, Akron students moved into a new junior high facility. The old three story structure had been demolished and the gymnasium renovated. Six new classrooms, restrooms and dressing rooms were opened at Mentone School and a new multi-purpose library/cafeteria opened at Burket.

An administrative office complex at the Mentone Elementary School was completed during the summer of 1989, and a new boiler room and boilers arrived during the summer of 1990.

An auxiliary gymnasium at the high school was completed during the summer of 1993.

# Tippecanoe Valley High School

Tippecanoe Valley High School, built in 1975, is located on an 80 acre site south of Mentone, Indiana in Kosciusko County. In the fall of 1997-98, the school served 670 students enrolled in grades 9-12. The building contains 30 teaching stations, a library, a health services clinic, an administrative and guidance suite of offices, a teachers' lounge, a cafeteria and kitchen, a 2,700 seat capacity gymnasium (also an auxiliary gym), and a 167 seat auditorium. Special purpose classrooms include instrumental music, home economics, industrial arts, vocational programs, laboratory service, business education, and a junior Olympic-size swimming pool. The school site also has a lighted football field, an all-weather track, two softball fields, and eight tennis courts.

Thirty-five full-time and four part-time faculty for a FTE of 39 faculty deliver the instructional program to the 670 students enrolled in the school. The part-time faculty provide instruction to pupils in swimming, chorus, band and home economics. The faculty is supported by a full-time principal, one full-time assistant principal, two part-time athletic directors, two full-time counselors, two full-time secretaries, a full-time bookkeeper, a full-time librarian, and a part-time nurse.

## Physical Structure

The single story brick building is located at the center of the school site facing east to Indiana Highway 19. Parking and service drives are located on the east and north sides of the building. Athletic fields and tennis courts are located on the west and north sides of the building. The present site has been expanded to include a new Tippecanoe Valley Middle School which houses grades 6-8.

The high school building is a rectangular shaped one floor level structure with a multi-purpose area located in the center of the building. The administrative offices are located at the center of the main corridor. The building is constructed of brick and concrete block with exterior brick veneer, and has metal framed windows and doors. Interior walls are brick and concrete block with vinyl wall covering. Floors are terrazzo, tile and carpet.

## The Community

The Tippecanoe Valley School Corporation is comprised of Henry and New Castle townships in Fulton County and Franklin, Harrison, and Seward townships in Kosciusko County.

The school corporation is located in the northern part of Indiana approximately 50 miles south of Elkhart, Indiana. The towns of Mentone, Burket, and Akron are located within the boundaries of the school corporation.

# *Sports*

Tippecanoe Valley High School and all of the former high schools that led into making Tippecanoe Valley School Corporation have always had a rich tradition in high school athletics. Both male and female athletes are urged to participate in the variety of sports that are offered.

# Mentone School History

The first school of the Mentone area was located on the northwest corner of what is now the intersection of State Road 19 and 25. This was a district school, probably District 13, and was called the Morgan School. It received this name because it was located on John Morgan's land.

In the spring of 1883, since Mentone had increased in population, the old building was no longer large enough to accomodate its students. This prompted Mr. Rickel and Mr. Everly, the trustees, to build a larger building where the school house stood. The construction began soon thereafter and was completed in the fall of the same year. It was a large frame building heated by stoves and, unlike our present buildings, it was surrounded on the north and east by woods and a rail fence.

In 1893 the school building was built under the supervision of the trustees, A.G. Wertenberger, L.P. Jefferies, and C.F. Doane. It consisted of six rooms which were ventilated, heated and had good lighting. It had all of the latest improvements for the comfort of the pupils. The building was located on the corner of Broadway and Harrison Streets. In 1908 Mentone was declared a four year high school.

In 1932 a new high school was built in the northeast corner of Mentone on Jackson and Yale Streets. The building was a large brick structure. The school was enlarged in 1953 to include a new gymnasium with a stage and classrooms.

During the 1960s Mentone High School looked back with many memories of their school day; the school song, the old gym and the many ball games played there, the plays, the teachers that influenced our lives, and all the life long friends we made along the way. It is with great pride that we remember our old school buildings; whether still standing or long gone.

***Compiled by Linda Cochran from information given by David Bowser, Eula Smith, Hazel Linn and M.O. Mentzer and the Mentone Centennial history book*

# Harrison Township and the Franklin Township part of Mentone

**The following was taken from the *Tri-County Gazette*, April 30, 1903, written by D.C. Heffley.**

"Like all other organizations, our public schools have a history. Up till 1883 the school building of this immediate vicinity was located on the present site of the Marion Heighway's residence. In appearance the building resembled the rural district school house of that time. As far as I am able to learn, Miss Dora Gouchenour and Mary Uplinger were the last teachers of that school.

"In the spring of '83, since Mentone had increased in population, the old building was no longer large enough to accomodate the pupils. So after some discussion Mr. Rickel and Mr. Everly, the trustees, decided to build a larger building where the school house now stands.

"The construction was soon begun and in the fall was finished. It was a large frame building, heated by stoves, and unlike our present building, it was surrounded on the north and east by woods and a rail fence.

"Frank Cretcher, assisted by Miss Anne Melick, taught the first term in the new building. Following these were: O.A. Harding, Miss Effie Brindley, Mr. Bogess, Mr. Porter, Mr. Gunder, Mrs. Poffenberger and Mr. Sloan. The high school was first established by Mr. Gunder and more thoroughly organized by Mr. Sloan; the last teacher in the old frame building.

"The history would not be complete if I did not mention one peculiarity of Mr. Sloan. He was not satisfied with the diligence of the teachers of the lower rooms in observing the discipline of the school and consequently holes were bored in the doors of the different rooms. Through these holes the gentleman often took a birdseye view of the rooms and many times the unruly youngsters were surprised by the appearance of the professor with a hickory paddle. You know what followed.

"In 1893 our present school building was built by the architect A.L. Kramer, under the supervision of the trustees, A.G. Wertenberger, L.P. Jefferies and C.F. Doane. It consisted of six rooms, well lighted, heated and ventilated. It also had all of the latest improvements for the comfort of the students.

"The instructors of the schools since the construction of the new building are as follows: O.H. Bowman, Mrs. Beldon, C.E. Hudson, I.A. Meredith, Miss Alice Jennings, Miss R.C. Cretcher and W.H. Davis, our present principal.

"While the public has always been the back of the school, as a matter of course, the officials to whom have been entrusted the administration of affairs are largely responsible for the growth or decay of any system of schools.

"Among the persons who have served on the Board of Education, and have very materially assisted in the progress of the schools, are the following: C. E. Doan, A.G. Wertenberger, L.P. Jefferies, J. W. Dunlap, Dr. E. Stockberger, M. Heighway, Dr. J.W. Heffley, W.A. Forst, D.W. Lewis and E.M. Eddinger.

"As a whole we are very much indebted to the teachers and officers named above, for our schools at the present time in excellent condition - a condition that indicates growth in the past and a bright outlook for the future.

"Our schools are such as insure good instruction, sanitary surroundings and all that is inviting to persons in pursuit of learning. It is thought that in the near future, another year will be added to the high school and then our officials can present you with a registered diploma on the completion of the course. With this improvement, our would certainly become a model of public schools."

The present Mentone Elementary School was built in 1930 with additions thereto in 1953, 1958 and 1967.

# Burket School Memories

Following are excerpts taken from a book titled *An Indiana Mother,* a tribute to Bernice Rush, a former student and later a teacher at the Burket School.

Bernice attended the three room school in Burket adjacent to her home. Grades one through three were combined, as were four through seven and eight through eleven. She learned to read from a chart. When she reached the eleventh grade, the school board decided to offer one more year of schooling. Bernice's class was the first at Burket to receive a full high school diploma in 1912. Education has always been highly valued in the Goshert family. To complete high school, Clara and Roy had to board in Warsaw. Clara, the eldest, then attended DePauw University and Roy graduated from the Winona College of Agriculture. He took much ridicule because he went to school to be a farmer, but no one has ridiculed his success.

After Bernice graduated from Burket High School she borrowed $75 from her mother for room, board, and tuition for a 12-week summer teacher training session at Valparaiso University. After she completed the course, she was licensed to teach grades one through eight for the next three years.

"I attended school in Burket and usually went home at noon for lunch except in cold weather. We had three rooms, Primary 1, 2, & 3, Intermediate 4, 5, 6, & 7, 8th grade and the three year high school. We never had but one teacher in the 8th grade and high school until 1911-12 when we had two teachers and a four year high school - it was commissioned. That was the year I graduated. We had five in our class. There were three in the next class and now I am the only one left of the two classes (1978)."

Public school sessions ran for only seven months at a time; school was out in April for the planting season. Her first teaching engagement was at the Snoke School, a one room school outside of Burket. Her pay was $40 a month. She either boarded at home or with family among the school patrons. There was neither water, plumbing nor electricity inside the school. In the spring she suffered appendicitis and missed the last month of school.

"When the new school house was built in Burket (1908-09), the contractor stayed at our house. Sometimes his wife was with him. He lived in Rochester (before autos)."

# Seward Township - Burket School

Around the turn of the century a school for grades 1 through 12 was built at Burket. For several years, due to the lack of transportation, high school students in the southern part of the township could go to either Silver Lake High School or Beaver Dam High School and some elementary students went to one room schools and later to Franklin School and Seward Central. As transportation with school buses was established, all Seward students came to Burkett.

After World War I a wooden frame gym was built west of the school. Four way basketball tournaments were held in this gym for Burket, Beaver Dam, Mentone and Etna Green.

In 1960 a new Burket Grade School was built and the high school students were sent to Mentone. The old building was demolished in 1964.

# Henry Township - Akron Schools

*By Willis Brown*

Akron High School was first organized in the mid 1890s and the first class was graduated in 1897 with 8 members in the class. There is no record of a class in 1898. The class of 1899 had 3 members and in 1900 there was one graduate. From then on the number of graduates gradually increased and by 1909 there were 17 graduates in the class. Until the new high school building was constructed in 1912, the entire school, both grade and high school occupied one building which was located about three blocks south and east of the center of town. The new building, which was a 3 story structure including a small basement gymnasium, was first occupied in 1913. The building was enlarged in 1926 with one story wings added to either side and a new gymnasium in the back. This gym was later enlarged in the late 1940s.

Basketball became an important sport at Akron High School back in the early teens soon after the new building was occupied. The following is quoted from a letter written by Roy Jones, who was coach at the time, to W.B. Shewman who was then teaching at Rockport, Indiana, and later became principal at Akron.

> Am rather proud of our basketball record. The only game we lost in 1913-14 was the New Richmond game at Bloomington. We play Thorntown Jan. 15, New Richmond Jan. 22 and Rochester Jan. 27. If we can get by on these games, I believe we can win in this District March 5 & 6.

Enrollments increased after the new building was occupied and the class of 1915 had 26 members. From then on the high school enrollment became stable with only minor fluctuations from year to year and a very gradual increase.

Getting back to basketball, the school first won a sectional tournament in 1929. Another interesting observation on sectional tournaments is that before consolidation occurred in 1948, Akron, Beaver Dam, which is three miles north of Akron, and Gilead, which is five miles south of Akron, all played in the finals of 3 differnent sectional tournaments - Winamac, Warsaw and Peru respectively - and all three lost.

The following is a list of the principals at Akron High School. It is accurate as far back as 1918. Prior to 1918 I was able to find the names of three principals, Cherry Templeton, Mr. Neil and Mr. Knight, no dates as to their tenure however, could be found.

| | |
|---|---|
| 1918-19 | W. B. Shewman |
| 1920-22 | J. L. Tombaugh |
| 1923-25 | Roy Jones |

# History Of The Beaver Dam School

The early history of the schools, later making up the Beaver Dam School, goes back as far as 1838 when the first Franklin Township election was held. At that time the trustees of the Township of Franklin took official charge of the schools. Prior to that, only subscription were the rules or practices. Only one of these, the Nichols School located one quarter mile west of Nichols Cemetery, is known. Jeremiah Burns taught at the Nichols School for a short time. Undoubtedly there was such a school at Beaver Dam, however, no records have been found of it or any of the others in the township.

About 1852 the new Constitution of Indiana gave the trustees power to tax the patrons for the support of the one room school districts which by that time had increased in number several times. The patrons of each district school elected school directors at an annual meeting in each district. The district directors looked after the management of each school but the Township Trustee levied taxes and paid the expenses.

In 1859 the three township trustees were reduced to one by an act of the General Assembly. In 1865 power was given the trustee to levy taxes to erect school buildings upon the property of the taxpayers of the township. Taxpayers could pay the tax in labor or materials. It was from 1865 to 1890 that the red-brick one-room schools were built, looking like the one shown here, which is the old Lincoln School also known as District 14. Beaver Dam had such a school as evidenced by the name it carried; District 10.

In 1881 a three room brick school was constructed on the site of the old Beaver Dam School. This building was used until 1909 when it was demolished and a new consolidated school (other district schools had been abandoned and had merged with Beaver Dam) was erected. Because the new building was not completed by September 1909, the school was housed for part of the school year in the old brick Petry Sawmill building. This building was used along with an addition built in 1928 until it was destroyed by fire in 1968.

When the 1881 building was erected, grades were introduced. The district schools had been ungraded to that date. Later, high school courses were offered. The school had no high school graduates until 1914. The class of 1914 had four graduates. Austin Blue was the Township trustee and Mrs. O. Travis Martin was principal.

Alumni pride is very great, especially after the Beaver Dam High School basketball team went to the State Basketball tournament in 1933 and 1934.

# New Castle Township - Talma School

## Mrs. Joe Peterson

Roy Jones was Assistant Principal of the old school from about 1894 to 1904. The old building burned down during the night in November, 1915. I was in the 8th grade. We finished the rest of the year in the old Gleaner's hall above the Hatfield Store; it was heated by a stove in the front of the hall. I was cold all winter.

The new school was built in 1916 at a cost of $332,000. It was late in the school year before it was finished so we had to make up lost time by going on Saturdays the rest of the year.

I started my freshman year in the new building. We were proud of the new school because it had a gym. The grades were on the first floor and the high school was on the second floor. We had a girls' basketball team; I played guard for four years. We played at all of the towns and schools around us.

Lloyd Eherman was the Principal in the new building. The first World War came and ended November 11, 1918. I was a junior at the time. I graduated in 1920 with ten other classmates. All have died except Tural Fore Kessler and myself.

The last high school class graduated from Talma in 1963. The high school students were sent to Tippecanoe Valley and the building was used for the grade school until April 1973 when it was destroyed by a tornado.

**Class of '63 - Last High School Class of Talma High School - building blown down in a tornado of 1974. A community bldg now stands on this property.**

## PUT TOGETHER BY

## THE 1996 ALUMNI COMMITTEE

Beaver Dam High School, now part ofTippecanoe ValleySchool Corp.

# BASKETBALL - 1933-34
## Coach of Beaver Dam state final basketball teams to be inducted into Hall of Fame

**by Ann Allen, Correspondent, *Rochester's Sentinel's Compass*, 02/25/97**

Walter (Walt) Kindy, who only coached three years and whose team came from a school even smaller than legendary Milan, will be inducted posthumously into the Indiana Basketball Hall of Fame on March 19.

In the days before semistate competition, two of Kindy's Beaver Dam teams went to the state finals, in 1933 and 1934. The Beavers didn't win either tournament, but the fact that they made it to the "Sweet Sixteen" was no small feat for a school so small that city newspapers described them as "ten lanky farm youths who help their fathers with the chores and play a little basketball in their spare time" and as "boys whose strong backs and arms developed from milking cows and baling hay." Others reported, "They know well-worn clodhoppers instead of glass slippers.

The late Arch Baumgartner, longtime publisher of *The Mail-Journal,* recalled them in 1987 by quoting from Ray Gard's column in the *South Bend Tribune:* "Nearly everyone was broke, hungry or out of a job. But that was no matter. The David of High Hoopsville was challenging Goliaths....The five had to do chores on the farm first. Milking the cows came ahead of learning to dribble and pass. Chopping wood overshadowed free-throw practice in the school's cracker box gym."

"I don't know of any smaller schools since 1936 that even won a regional," said former Hall of Fame executive director Ron Newlin.

Beaver Dam had 40 students in its top four grades and graduating classes of 13 and 11 the year it made it to the state finals. Representing a community that lacked a post office, the Beavers became accustomed to headlines like "Where is Beaver Dam, Anyway?"

Located a few miles north of Akron near a church and a handful of houses, the school eventually was used as a junior high when Tippecanoe Valley School Corporation was formed. It burned in the 1960s after being struck by lightning, but its memory lives on for loyal alumni, including members of the two teams that almost put it on the map.

But most of all, they remember the coach who made it all possible.

A native of Middlebury, Kindy participated in wrestling and baseball in high school, switching to football at Manchester College, where he graduated in 1929. That was the same year Beaver Dam got its own 250-seat gymnasium. Previously, the Beavers played home games at Burket and conducted some practices outdoors. Since Beaver Dam had no football team, Kindy coached basketball, baseball and softball in addition to teaching mathematics and all the physical education classes.

Kindy is credited with being one of

the first Indiana coaches to use variations of the shifting zone defense. He also used a fast break offense featuring one-hand shots from all ranges. "He was very astute," said Charles Kern, the back guard turned sportswriter called "no bigger than a peanut."

"He could watch a team and come in at half-time and tell you what you needed to do to win," added Kern.

Now a retired educator, Kern recalled the rewards of winning. "One week a farmer and his wife would tell us if we won the next game, they'd have the team over for a good meal," he said. "The next week, another couple would."

Eventually, Kindy helped Kern get into Manchester College. "I owe him so much," Kern said of the coach he helped nominate for the Hall of Fame. Joining him in the effort, which originated in 1988, were Dan Bucha, a basketball enthusiast from Niles, Michigan, and Marvin Wood, coach of the Milan team that became the basis for the movie *Hoosiers.*

Gene Marshall, now retired and living in Akron, recalled sitting on the bench when Kindy suddenly tapped him on the shoulder and said, "You're in." Described by sportswriters of his day both as "subtle" and "midget," Marshall, a forward, was a member of both teams that went to the state finals. In fact, it was his last-minute free throw that cinched one regional victory.

Marshall remembered well the handicaps his team played with, not the least of which was a bout of influenza. "When we played at the regional in Auburn, we had to change in a classroom across the road," he said. "After the game, someone locked the door. It was winter, and we nearly froze." The entire team, shivering in their shorts, caught colds. By the next weekend, when they took to the floor at Butler Fieldhouse in Indianapolis, many had influenza and temperatures of 102. "We pulled ourselves out of bed and went," Marshall said. In spite of their weakened conditions, they played hard before losing to Fort Wayne North.

Kindy left Beaver Dam at the end of the 1933-34 season to go to South Bend Central, where John Wooden was coach. The two became close friends. As Wooden's assistant, Kindy served as athletic director, baseball coach and comptroller. He eventually scouted for Wooden at UCLA.

Kindy retired in 1971 and died of cancer in 1984.

"I just wish he was alive to see his name entered into the Hall of Fame," said Marshall, who along with Kindy's widow, Dorthea, and as many members of the two teams as possible, will be present at the induction ceremony and banquet.

It's a sentiment shared by John Wooden, a 1962 charter member of the Hall of Fame. "Walter Kindy belongs in the Indiana Hall of Fame as much or more than many of us who have received that honor," he wrote in a letter that was quoted in the *Elkhart Truth.* "He was a teacher in the very finest sense of the word and every student who came under his supervision became better because of the experience. I believe that to be true and I am not thinking merely in terms of mathematics or athletics."

## Kindy Inducted Today

**by Jeff Holsinger, Sportswriter, *Warsaw Times-Union, 03/19/97***

Walt Kindy coached three years at Beaver Dam, but what a three years those were. He guided Beaver Dam to winning records and sectional titles every season. He led Beaver Dam to two regional championships and two trips to the state finals, the 1932-33 and 1933-34 seasons.

He introduced the 3-2 zone defense to the area.

Kindy died of cancer in 1984, but he will be inducted in the Indiana Basketball Hall of Fame posthumously this evening. The ceremony will be held at the Westin Hotel in Indianapolis. Fourteen people will be inducted.

"He'd like this pretty good," says Gene Marshall, a forward who played on both teams that went to the state finals. "it's just too bad he couldn't make it." He won't, but his widow Dorthea and their two boys will, along with former players Marshall and Charles "Chick" Kern.

Work on Kindy's 1997 induction began in 1988, spearheaded by Kern. Kern spoke to two people, Jim Powers and Marvin Wood. Powers coached successful basketball teams at several places including Rochester, Elkhart Memorial, and South Bend Central which he took to the final game of the state tournament only to lose to Muncie Central. On this team was an allstate guard by the name of Mike Warren, who played for John Wooden at UCLA, a two time All-American as well as playing on a few NCAA National Champion teams, some of you will recall that Mike Warren starred on *Hill Street Blues.* Wood coached at Milan - the small school the movie *Hoosiers* is on - to its state championship. The two labored on Kern's behalf, bringing Kindy up to the committee. Finally, this day came.

"I always felt he deserved it," Kern, a guard on Kindy's team says. The way Kern recalls, when Kindy arrived, success arrived. The year before Kindy was named coach he remembers Beaver Dam winning one or two basketball games. Beaver Dam went 12-8 and won the sectional to advance to the regional in Kindy's first year.

Beaver Dam beat Columbia City 33-22 in the 1933 regional to advance to the Sweet 16 - the state finals back then - in Kindy's second year. Semistate didn't exist. The Beavers, 27-2 that year lost to Fort Wayne North Side 37-25.

The Beavers beat Ligonier 34-33 in the 1934 regional. They again went to the Sweet 16, where they lost to Richmond 41-12.

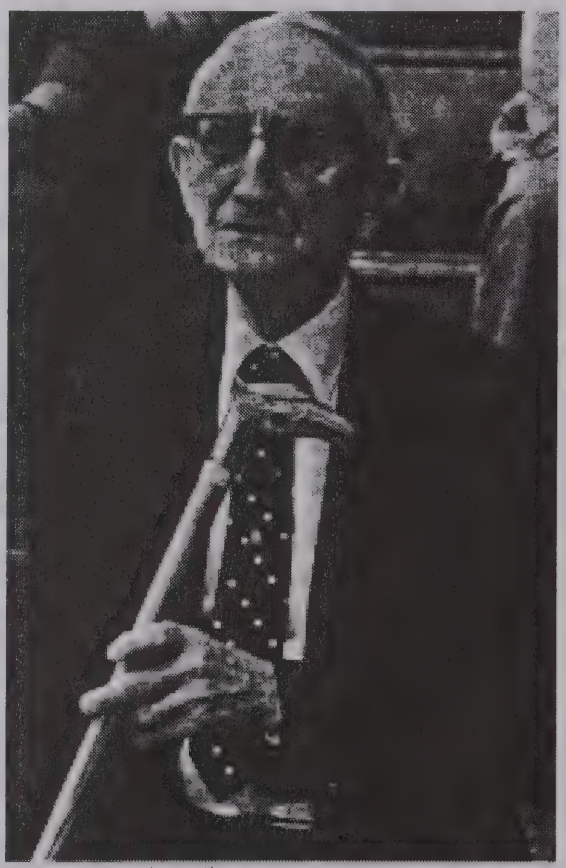
"Before Kindy, this school never went to the state finals. Beaver Dam had 51 students in four high school grades," Kern says. "Smaller than, yep, even Milan. A small school like Beaver Dam in the state finals was unheard of, so the Beavers made headlines. Before Kindy, people made cracks about Beaver Dam's size. Kindy helped put Beaver Dam basketball on the map."

The school did other things under Kindy, like beat Warsaw. Beaver Dam

upset Warsaw 13-9 in 1932. Former player Bill McFarland believes this was Beaver Dam's first win over Warsaw. Beaver Dam was the smallest school in the county, and Warsaw was heavily favored. One newspaper story described the Beaver Dam win as "one of the greatest contests ever staged in the county." The Beavers used Kindy's specialty - zone defense - to win. The same newspaper story noted "Warsaw couldn't break through Beaver Dam's defense." Kindy was an innovator. He preached a 3-2 zone that other teams had never seen back then. Three men stood out front, while the two others were underneath the basket.

Kindy concentrated on shooting, running different plays and the 3-2 zone defense in practices. Conditioning wasn't stressed then as it is now. Most, if not all of the boys did farmwork. That made them strong. Practices weren't held right after school. The boys would go to school, come home to do chores, eat and then go to practice at 7 p.m. or so. Kindy's team stuck with the 3-2 zone. "The Beavers," never played a 2-3 or 1-3-1 or any other zone. Just a 3-2 zone." " That was the big difference with our team, the zone defense," Kermit "Bus" Leininger, a guard, says. "Other teams didn't understand how to handle it. It was new. I know in Kosciusko County, they didn't understand how it worked." One team on Beaver Dam's schedule was Leiters Ford. One time the Beaver's defense kept Leiters Ford scoreless until the third quarter. "The gym at Leiters Ford was narrow," Leininger recalls. "When the three men in front extended their arms, they covered clear across the width of the floor. "Leiters Ford didn't know how to get through the zone defense."

Besides Kern, Leininger, McFarland and Marshall, two other players from the two teams that went to the Sweet 16 are still alive. They are Claude Swick and Devon Tucker. (A note: Devon Tucker had a grandson to accomplish what the Beaver Dam teams didn't accomplish and that was to play on a state championship team, Warsaw, 1984.) Marshall, Swick and Tucker still live in the area. Leininger lives in Fort Wayne and Kern in the South Bend area. McFarland, the leading scorer on the team, lives in California.



**Ralph Tucker, Class of 1925, Beaver Dam. Tucker, who was named to four straight All-Kosciusko County basketball teams starting in 1922, was presented with a gold-headed cane.**

If Kindy's zone defense is the first thing the players remember about his coaching his half-time adjustments are the second thing. "He could see the weaknesses and point them out to you," Kern says. "Then you had to follow his instructions. That's all there was to it." "He could look and tell what was working and what wasn't." Marshall says.

More important than Kindy the coach these men say, was Kindy the man. Kindy taught math and physical education. He was in his late 20s when he coached Beaver Dam and he related to his players. Kindy who came from Middlebury, graduated from Manchester College in 1929. Kern wanted to attend there. Kindy knew people at the college, so he went out of his way to help Kern. Kindy told the college Kern would need some help financially. The school accepted Kern. Kern got his education. That's the way Kindy was. "We all thought a lot of him," Swick says. "We listened to him. Whatever he had to say, we listened." "He got us to believe in ourselves," Kern says.

After the 1933-34 season, Kindy left Beaver Dam for South Bend Central High School. There he served as athletic director and became friends with John Wooden. When Wooden coached at UCLA, Kindy scouted for him until 1971 when he retired.

Kindy stood only 5-foot-7 or so. But Coach Kindy packed boundless energy and motivational fire in that frame. "He had a personality that captivated people," Leininger says. "Not only his ballplayers, but patrons, fans and everybody. His personality was something. He had drive."

**Akron High School - Now Demolished - New Elementary School now on these grounds, K-5.**

## THE OLE MODEL T SCHOOL BUS

I started first grade in 1929 at ole Beaver Dam riding a Model T bus. It was a single axle single wheel truck. We had just received a heavy snow with many deep drifts. From home, we proceeded south on the angling road to 900 South, then we proceeded east for some distance and got stuck in a large snow drift. Johnny Cinninger lived nearby, so he brought over a team of horses and pulled us through the drift. During this ordeal, Johnny had to straddle the hood while we had the windshield cranked out to hear. After being pulled through the snow to the Cinninger's, it was decided to call the school. Much to our amazement they decided to cancel school. So, they rehitched the horses to the bus and pulled us back through the snow drifts. Back then the only heat we had in the bus was the exhaust pipe coming up through the floor behind the driver laying horizontal just above the floor at the back of the bus. You had to keep your boots off of this pipe as it would burn them. Back then everyone wore long underwear, so we kept warm.

Another incident that happened during my first year was very interesting. School had just let out and we were going east to 800 turning north when one of the rear wheels came off the same Model T bus. My brother Eldon ripped the seat of his pants on a spring that was sticking out of the seat. What a jolt! Along came Polly Baum, my teacher, to give the smallest ones a ride home. The older kids had to walk.

My favorite teacher was my first and second grade teacher, Polly Baum. She impressed me the most, although I can say everyone impressed me quite a lot. George Merkle, Kermit Leininger, Bill Williams, Bob Hahn and Mel Blickenstaff were my basketball coaches. Obviously they are high on my list. Ed Sirek the clarinetist and music teacher was just super.

I will never forget the spring of 1934 when Ner Kinder had the big Haldeman Limousine in the front on the circle by the north gym door to pick up the basketball players for the tournament. I was only in the 4th grade, so I really thought that was something. It was a great boost for the community, as the team got a great send off for the State Tournament of 1934.

I believe the whole school was outside that day to see the basketball team depart.

***George Cumberland, class of 1942***

## BEAVER DAM SCHOOL
## BY DORIS HANEY

For many years Old Beaver Dam
Has been a beacon light
Guiding the steps of boys and girls
In paths informed and right.
Not always did we heed too well
The lessons we were taught
By men and women teachers
That lives might not come to naught.
But common bonds of love and faith
Have been united here
As children came, and children went
Through every passing year.
Many generations have hurried down the halls
And many serious boys and girls
Have heard the clarion calls
That beckoned them to the world outside
Where there was work to do.
Because you taught us how to work,
Old School we honor you.
Established many years ago,
By men with vision keen
Who sensed the mighty forces
That this old school has been
In fashioning the lives of men
And women who have passed
Beyond those doors, to take their place
In areas so vast.

## CONT...
## BEAVER DAM SCHOOL

There are farmers, teachers and scientists,
Businessmen of every kind
Doctors and nurses, who offer all
To the service of mankind.
There are girls who add their beauty work
To that of God's Creation
And boys, who work for Uncle Sam
Defendimg this great nation.
And seen our flag unfurled
In lonely isles or muddy swamps
Throughout this whole wide world.
In '33, think it was, and again in '34
Old Beaver Dam cut down the nets
And laid them at our door.
That surely shook the county up
And told the countryside
That Beaver Dam was on the map
The object of our pride.
Then consolidation came along
And we will agree
That changed the order of our thoughts
As they were want to be.
No longer the same Beaver Dam
But just another station
In the TVS District
Quite an alteration.

## CONT...
## BEAVER DAM SCHOOL

We said "Good-bye" to our old school
As we knew it long ago.
We've learned the price of progress
It is costly, we now know.
When flames broke out; our hearts broke, too,
To see our school on fire
But the indignation in our hearts
Blazed higher and still higher
When at the height of the awful blaze
And tears were freely flowing
An onlooker came upon the scene
With attitude quite knowing;
And while our dear old building
Was a mass of smoldering rubble
Was heard to say, "Aw, let it burn–
"Twill save the school board trouble."

And now the wrecking crew has come
According to instruction
And with each blow, our hearts are bruised
To realize the destruction
Of what was once a noble source
Of inspiration grand
That helped to make and mold our kids
The finest in the land

# GUIDE TO THE DIRECTORY

## BIOGRAPHIES LISTED ALPHABETICALLY

Alumni are listed in alphabetical order. Following each surname are first name, maiden name (if applicable), year of graduation, school attended, residence address, telephone number, further education, employment, marital status (1), years married (2), number of children (3), number of grandchildren (4), number of great-grandchildren (5), hobbies, clubs and organizations, and E-Mail address. For example:

**JONES** D.D.S., DR VIRGINIA, (BELL), '60; AKRON; 4200 LEMON AVE,
last suffix prefix first maiden year school address

HUDSON, FL, 30000; (813)555-5555; D.D.S., UNIV OF FLORIDA
city state zip telephone further education

DENTIST, FIRST DENTAL INC; M(35) 3; 2; 1; GOLF, CRAFTS;
job title/employment (1) (2) (3) (4) (5) hobbies

ROTARY CLUB, CHURCH AUXILIARY; drvjones@get.com
clubs and organizations E-mail

Tippecanoe Valley High Schools:
Akron High School
Beaver Dam High School
Burket High School
Mentone High School
Talma High School
Tippecanoe Valley High School

(1) Marital status (M=Married, D=Divorced, W=Widowed, S=Single)
(2) Years married appear in ( ); (u)=Unknown
(3) Number of children
(4) Number of grandchildren
(5) Number of great-grandchildren

Alumnae are cross-referenced if name used as a student is different from current name. For example, married alumnae are listed under both married name (as above), and maiden name as follows:

**BELL**, VIRGINIA, '60; (SEE JONES)

Complete biographical data is included if a questionnaire was returned or if data was obtained by telephone. In cases where contact could not be made, most recent available information is listed.

## CLASS ROSTERS LISTED BY YEAR

This section lists alumni under their year of graduation. Alumni are listed by the current last name as shown in the biographical section. For years after 1930, an asterisk (*) denotes deceased alumni.

## GEOGRAPHICAL LISTINGS

Alumni are listed by current last name and class year under the resident state and city.

### MISSING YEARS

Unfortunately, during the production of this book, Tippecanoe Valley High School may not have been able to provide the Publisher with complete graduation lists for all classes. The Publisher would like to apologize for any incomplete or missing years.

### CHANGES

Although great diligence was exercised in compiling this directory, errors may exist. We apologize to anyone affected and ask that changes be sent to:
